

Presentation

With this issue, Once more, **Custos e @gronegocio** *on line* ends another year of circulation, continuing its editorial trajectory to stimulate the diversity of themes that deal with costs in the context of agribusiness, which has been a relevant landmark of this magazine in search of its own institutional and academic reference.

Both articles by Brazilian and foreign authors have focused on aspects relevant to their respective business environments, managers and academics who are interested in this area of knowledge.

Once again, I would like to thank all the reviewers for their invaluable contribution to the process of evaluating and improving the articles.

I wish you all a very good reading!
